

2025 Inova Community Health Opportunities

Purpose

The purpose of the Inova Community Health Opportunities is to improve care for our communities described in the Inova Community Health Needs Assessments (CHNA). The target populations are identified as having unmet health needs outlined in the CHNA with the areas of focus around Behavioral Health, Health Access and/or Economic Stability. The objectives of the proposed program/project should be clear, reasonable and attainable, with measurable impact on the addressed need(s).

Budget Guidelines

Funds will be provided by Inova, whose mission is to provide world-class healthcare – every time, every touch – to each person in every community we have the privilege to serve.

Inova will consider each request for support. While some requests may be higher or lower, it is anticipated that the average funded request will be approximately \$25,000. Inova encourages applicants to consider partnering with other eligible community non-profits to maximize their applications and ability to support the community they serve.
